† Enquiries were made as directed by the Secty and the Councillor. The Inspector Genl of Prisons expresses his concurrence with the Presidt of the Sanitary Board, in his opinion as to the extreme utility of planting trees in such a place as Kolar Gold fields, and says that the prisoners could hardly be more usefully employed.

As for supplying the Board with trees free of charge, Mr Cameron says that 1000 seedlings can be supplied by him at half the rates but not free of charge

that articles supplied from
this Department to the mines
are usually charged at half
the catalogue rates

The only point left in doubt
is whether the Sanitary
Board will have to pay
the cost of the guarding
establishment. The I.G. of
Prisons says that, of
no extra staff beyond the
usual lock-up staff is
required ~~extra~~, no cost under
this head need be levied
The question is whether, as a
matter of fact, the ordinary
lock-up staff is sufficient
under the rule when the
prisoners are employed
outside the lock-up
